PROFESSIONAL EXPERIENCE

Senior Android Developer | Hashone Tech. LLP 10/2018 to 02/2024

- Led development of complex features for mobile applications, applying architectural principles directly transferable to cross-platform frameworks like Flutter.
- Optimized application performance and resource usage across a wide variety of Android devices, gaining deep insights into platform-specific constraints.
- Mentored and guided junior developers on mobile development best practices, design patterns (MVVM, Singleton), and writing clean, maintainable code.
- Successfully migrated legacy native codebases to modern architectures using Jetpack libraries, demonstrating expertise in large-scale code refactoring.

Senior Android Developer | Creative Infoway 09/2016 to 09/2018

- Designed and implemented core application features, ensuring efficient resource utilization and a smooth user experience.
- Developed expertise in integrating diverse third-party APIs and libraries for payments, analytics, and notifications.
- Championed code quality by conducting code reviews and maintaining comprehensive documentation.
- Fostered a collaborative environment, effectively working with UI/UX designers and QA teams to deliver polished products.

Junior Android Developer | W3Nuts 03/2016 to 06/2016

- Rapidly mastered Kotlin for Android development, contributing to key application modules.
- Focused on writing clean, reusable components and adhering to team coding standards.

Junior Android Developer | Softeaven solutions 06/2015 to 02/2016

- Contributed to the full lifecycle of application development, from initial design to implementation and testing.
- Gained foundational experience in Android SDK, UI development, and handling application data.

ACCOMPLISHMENTS

- **Mentorship:** Actively mentored, trained, and supervised 15+ Junior Mobile Developers, enhancing team productivity and skill level.
- **Technical Leadership:** Assumed full responsibility for the development lifecycle of key mobile applications, from requirement analysis to deployment and maintenance.
- **Process Improvement:** Established and enforced best practices for feature development and code integration in collaboration with project managers.
